

Software Windows® 9x/Me/2000/NT/XP Integrating Averaging Sound Level Meter SC-20c

The **SC-20c** is supplied with free software that allows you to visualise on the PC screen and in real time all the data measured by the SLM and to retrieve the data recorded in its memory. With this software it is possible to generate complete measurement reports, visualise all the data numerically, graphically and statistically, and carry out advanced calculations of acoustic parameters.
